

**Who**  
Thinkerbell (Kayo Sports)

**What**  
Full-stack, two-page responsive promotional site. Competition form submission.

**Tech**  
Astro / React / Google Firebase

**URL**  
[kayo-dallasgale1s-projects.vercel.app](https://kayo-dallasgale1s-projects.vercel.app)  
! [thekayocallup.kayosports.com.au](https://thekayocallup.kayosports.com.au) is decommissioned

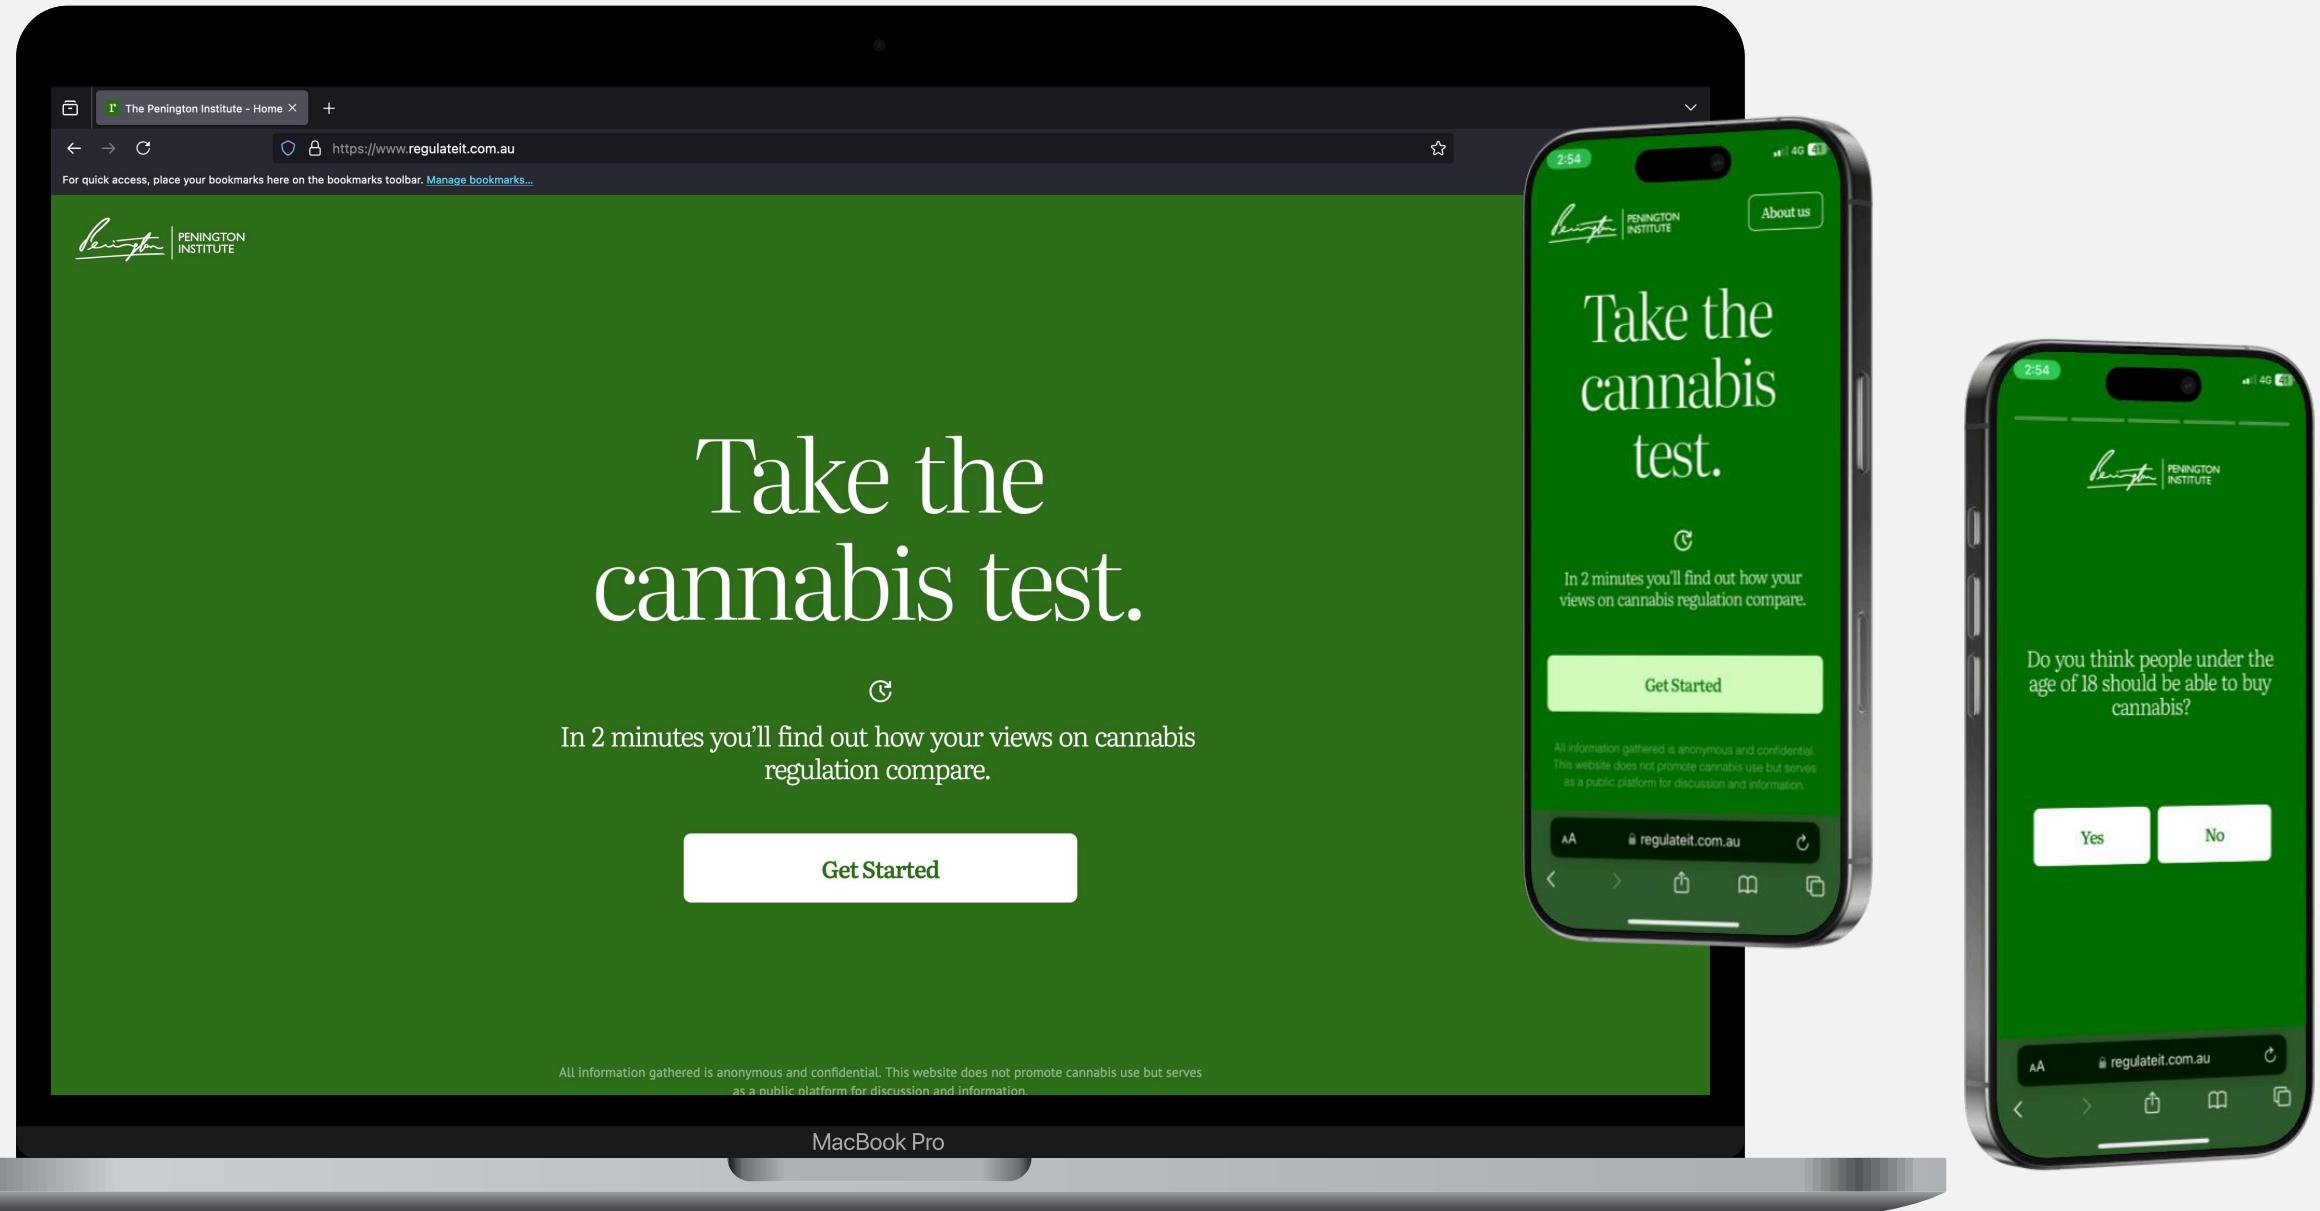

The image displays the Open Universities Australia website and its mobile application side-by-side. On the left, a MacBook Pro screen shows the desktop version of the website. The main heading reads "Compare thousands of online courses from leading Australian universities". Below it, a call-to-action button says "Take our 2 minute course matching quiz to find the study path that's right for you". A list of checkboxes includes "View instant results for free" and "Personalised recommendations". To the right of the quiz area is a large circular image of a smiling woman working on a laptop. Above the circular image are buttons for "Chat to a student advisor today" (with a phone icon and "13 67 36"), "Book a free consultation", and a "Book a free consultation" button. On the right, two smartphones show the mobile app interface. The top smartphone displays a testimonial from Sophie, who is enrolled at Murdoch University & Macquarie University. The bottom smartphone shows a list of benefits: "Get free, impartial advice from our local student advisors", "Create a flexible online study program", and "Access expert enrolment and administrative support". Both phones have a "Take the quiz →" button and a "Browse degrees & subjects" button. The top of the image features a dark banner with the text "Dallas Gale Creative." and "OPEN UNIVERSITIES AUSTRALIA".

**Who**  
Thinkerbell  
(Open Universities Australia)

**What**  
Single page course campaign landing page. Parallax on scroll, checkbox inputs to customise quiz page content.

**Tech**  
Astro / React / TypeScript

**URL**  
[open.edu.au/campaign/online-study/](https://www.open.edu.au/campaign/online-study/)

**Who**  
Thinkerbell  
(Penington Institute)

**What**  
Full-stack, multi-question quiz platform. Postcode submission to retrieve quiz results.

**Tech**  
Astro / React / TypeScript / Google Firebase

**URL**
